

Costalota Ranch

Start to finish Program.

In this program customers, or "share holders", commit to purchasing a whole pig when a liter is available. Your pig will be identified by a number tag. A deposit of one hundred thirty five(\$135) dollars and monthly fee of Sixty-five (\$65) dollars is collected. After four(4) to six(6) months the pig is ready to be sent to a processor of your choice. Share holders receive a variety of cuts including hams, chops, bacon, sausage and more.

This model strengthens connections between communities and farmers. Farmers benefit from financial support while share holders benefit from connecting with a local farmer and receiving a year's supply of delicious, high quality pork. This relationship allows share holders to learn more about the farm, how the animals are raised and where their food comes from!
